

Strawberry Cake

Ingredients:

- 1 3oz package Strawberry Jello
- ½ cup boiling water
- 1 box golden or yellow cake mix
- ¾ cup vegetable oil
- 4 eggs
- 1 10 oz box frozen strawberries, thawed
- 1 16 oz box confectioner's sugar
- 1 stick of butter, softened

Method – Preheat oven to 350. In a small bowl, dissolve the Jello in the boiling water and set it aside. In a separate large bowl, mix together the cake mix, oil, and eggs really well. Stir in the Jello and ½ the strawberries with their juice (ALL of their juice). Bake in a 9x13 pan for approximately 25-30 minutes, or until cake tests done. When the cake is cool, make the frosting by beating together the sugar and butter with an electric mixer until fluffy. Add the remaining strawberries a little at a time and beat until the frosting is spreadable. Spread on top of the cooled cake.
